Web Server

Test suite

Test results

Contains:
Test case XML files
Test implementations

Contains:
Test report XML files
Test evidence files
(screen shots, video/
audio recordings)

HbbTV

Test suite usage

- HbbTV implementation development

- Device conformance certification

Test suite license

- Anyone through HbbTV Registered Test Centers.

  https://www.hbbtv.org/resource-library/#testing-information-and-support

- HbbTV members for use in their own facility.

- Early access is granted only to test suite contributors.

HbbTV life cycle examples*

Requirements

Requirements capture on basis of set of criteria and categorised:
1. Ext. Tech.
2. New features
3. Deprecation
4. Ind. Specs. into Core Spec.
5. Errata

T-24 months

Test Assertions

Availability depending on the complexity of additional spec features

T-12 months

Test Suite

A test suite is a pre-requisite for product on the market. HbbTV currently commissions Test Suites at considerable cost from external suppliers.

T–6 months

HbbTV continues aim of reference external tech. where possible. This tech. may be updates according to regular cycles.

T -18 months

Draft Specification

HbbTV gates it Spec publication on the availability of the specification and an associated Test Assertions
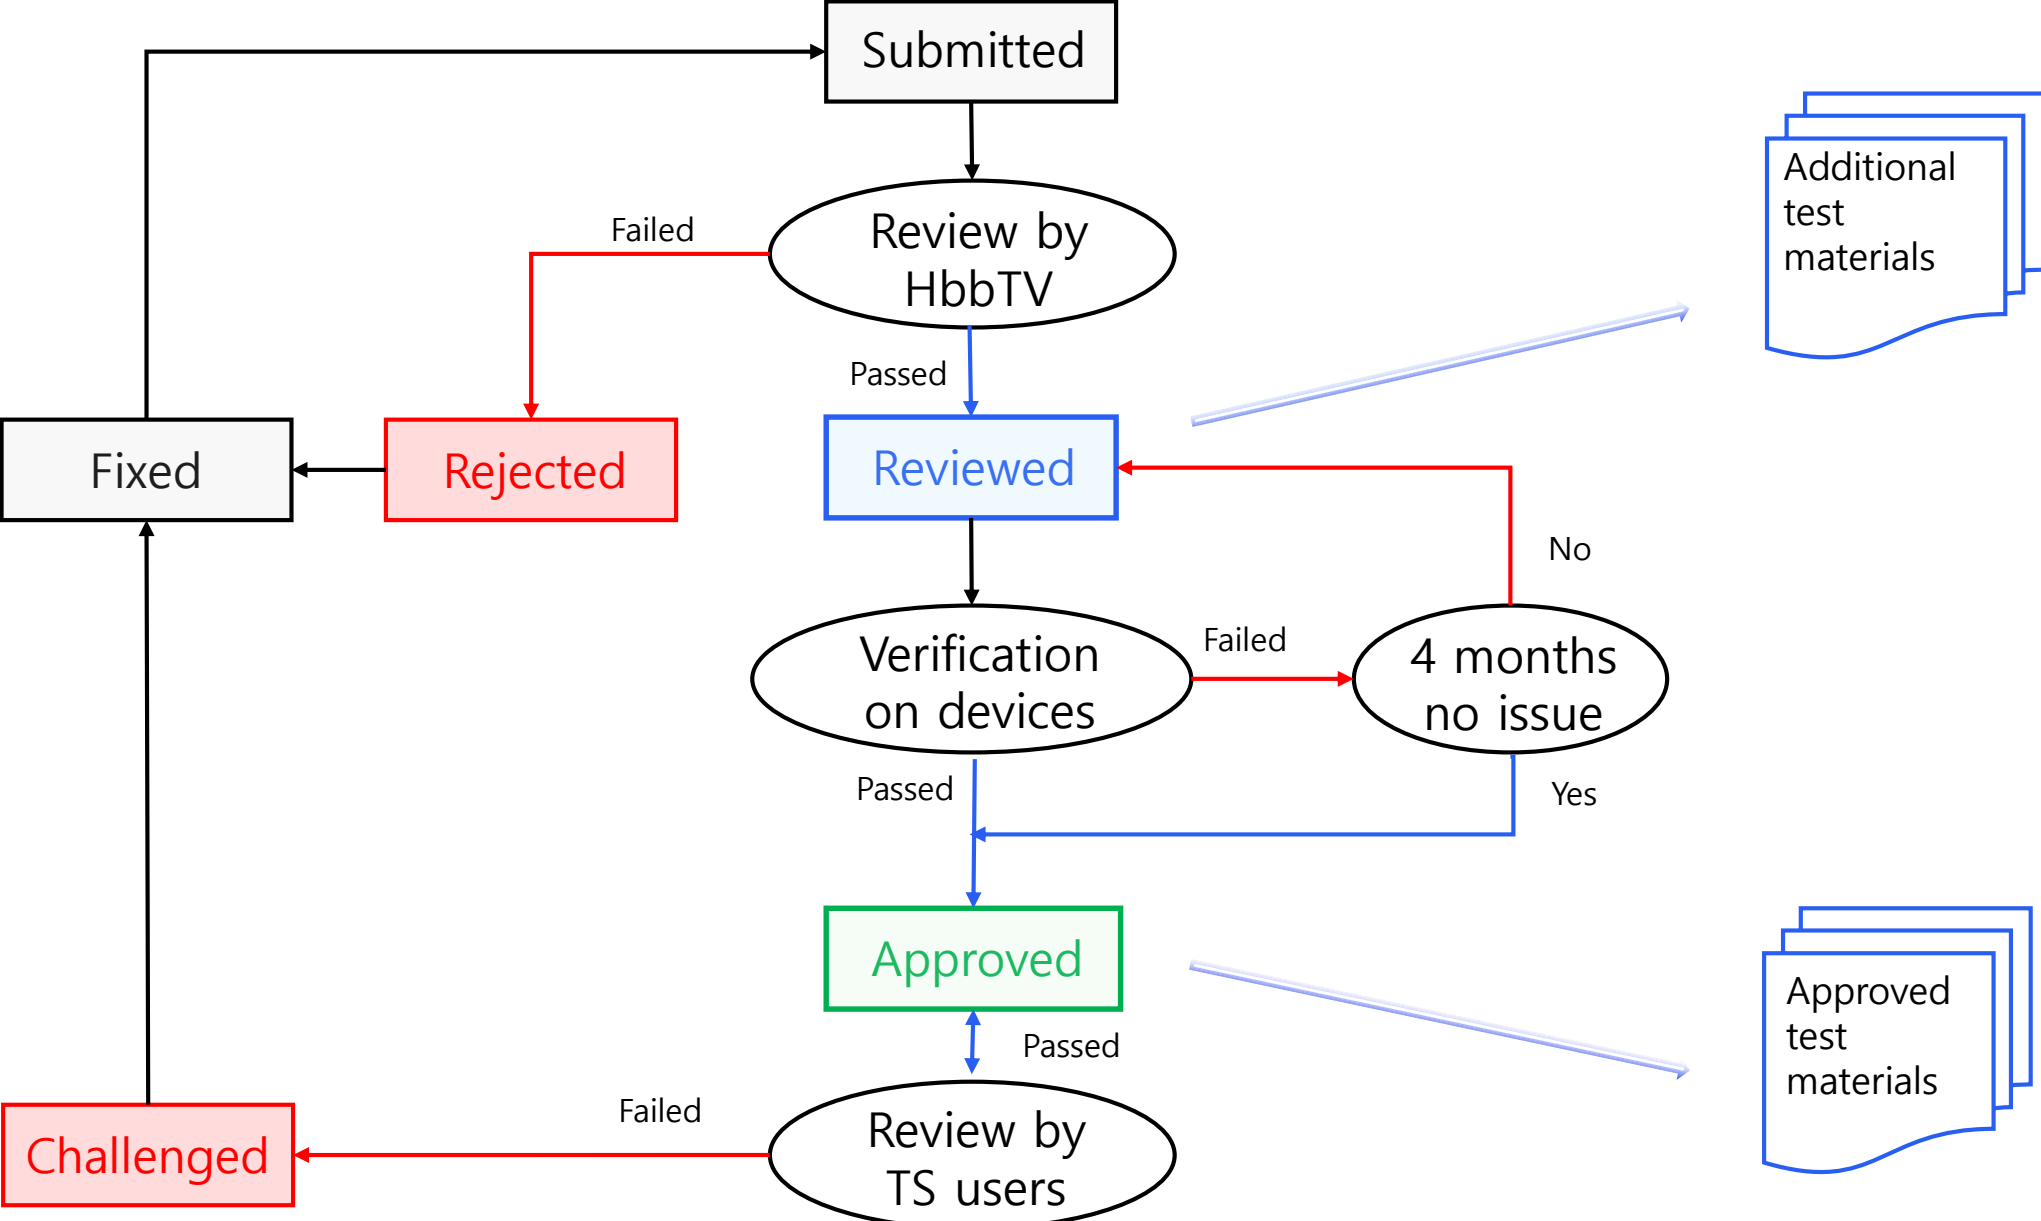

T-12 months

Spec. Publication

T

HbbTV's process ends with deployment of product based on its specification

Deployment

* This timeline is indicative
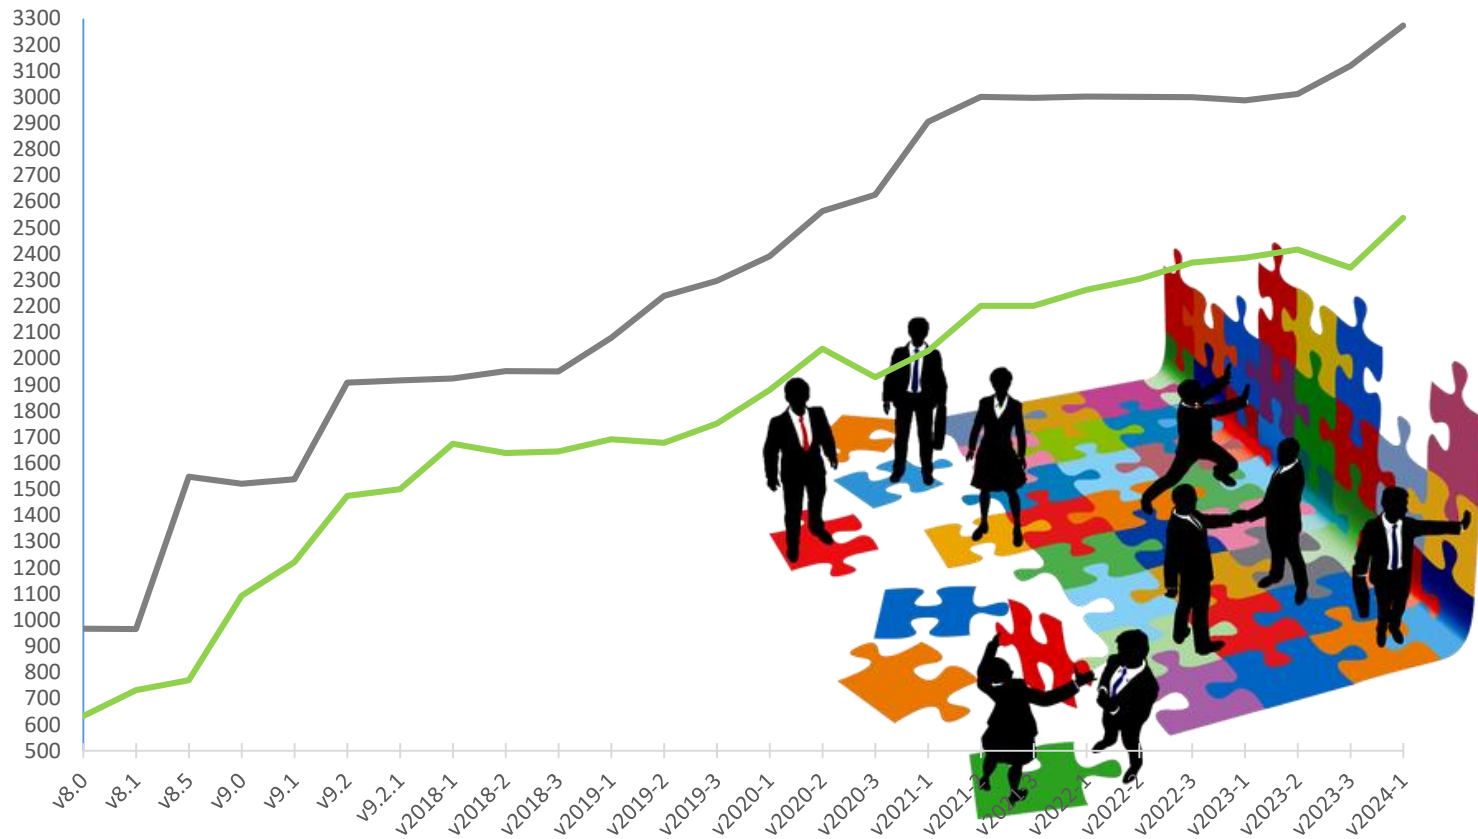

HbbTV test maintenance process

HbbTV testing event

- Testing events are organized before every Test Suite release.

- Test verification on multiple devices. Some equipped with newest implementation, not yet publicly available.

- F2F discussion between test providers and HbbTV implementers

- Direct support from test and harness providers.
